Dorian Urem

FULL-STACK WEB DEVELOPER
uremdorian@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

Web developer skilled in building applications using JavaScript, React, and Ruby on Rails. I have lots of experience in pair programming and collaborating remotely. I'm looking to pursue a successful career in software development at a company where I can help deliver state-of-the-art software solutions.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3, SCSS.
Back-End: Node, Ruby, Ruby on Rails, PostgreSQL.
Tools & Methods: Git, GitHub, Mobile/Responsive Development, TDD, Chrome Dev Tools, Figma.
Professional: Remote Pair-Programming, Teamwork, Mentoring, Communication, Problem-Solving.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Kanban Board — A kanban board is a tool that can be used to manage work at a personal or organizational level. It visually depicts work at various stages of a process using cards to represent work items and columns to represent each stage of the process. It is a responsive web app built using the mobile first approach.
- Built with: React & Redux.

City Air Pollution — A single page app designed for mobile phones. Shows air pollution data for a city using 2 different APIs. The user can navigate through the different parts of the world using the grid options, or he can search for a city directly with the search bar.
- Built with: React & Redux

E-Commerce Site - An e-commerce SPA, app data is fetched from a GraphQL API. The user can navigate through the different categories and products and add/remove items from the cart.
- Built with: React, Redux, React-Router, Apollo Client

Tesla Car Rental — A full-stack app built in a team of 4. The user must register to use the app, he can reserve a car and see the details of a car. The admin can also add or remove cars.
- Built with: React & Redux, Ruby on Rails.

MICROVERSE   Remote
Mentor (Volunteer)   June, 2022 – January, 2023
- Mentor junior web developers, providing technical support through code reviews.
- Propose improvements to code organization to improve code quality and overall performance.
- Provide advice and tips on how to maintain motivation to maintain longevity in the program.

SALESLAUNCH.COM   Remote
Web Developer (Part- Time)   December, 2022 – April, 2022
- Build and maintain an ecommerce website.
- Create an API and use multiple external ones.
- Use various different tools like Stripe, Aweber, Zapier, WordPress, easyDNS, ClickFunnels.
- Communicate effectively in a small remote team.

EDUCATION

MICROVERSE   May, 2022 – January, 2023
Remote Full Stack Web Development Program, Full Time
- Spent 1000+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
